Subject: PRR #139 and PRR #25-64 –
Formal Escalation and Demand for Action

Date: June 24, 2025

From: Jamie Weinbauer Martin

Dear Director Zbiegien , BOS, and Records
office,

This message serves as a formal escalation
concerning **PRR #139** and **PRR #25-64**,
both of which remain unresolved in ways
that materially affect the public's trust in
this county's compliance and procurement
oversight systems.

I have made consistent efforts
since **2021** to engage in good faith on the
issue of vendor compliance, corrective
action procedures, and oversight failures
tied to the **2020 election contracts** —
particularly in relation to SLA enforcement,
CAP (Corrective Action Plan) initiation, and
internal documentation retention. These
efforts have included:

CAP (Corrective Action Plan) initiation, and internal documentation retention. These efforts have included:

- **Reaching out to the Recorder's Office (Stephen Richer, Ilene Heber, and Justin Heap • Contacting Information Governance (Cynthia and Kerry)**
- **Direct communication with legislative offices, including JD Mesnard and staff**

Note: Submitting multiple formal requests under A.R.S. § 39-121
(Key Points:

- **It affirms that public records are open to inspection by any person, unless specifically exempt by law.**
- **It applies to all state and local government agencies, including counties, departments, and elected officials.**
- **It does not require the requester to explain why they want the records.**
- **Agencies must respond promptly and cannot delay access unreasonably."**

 In Context of PRR #139 and PRR #25-64:

You cited A.R.S. § 39-121 to request:

- Internal audits
- Voter registration records
- Post-election reviews
- Any documented compliance failures

Under this law, Maricopa County must provide those records—or cite the specific legal exemption if they deny access (which would fall under A.R.S. § 39-121.01(E)).

- Presenting Resolution Three and compliance documentation to BOS members and media
 - Providing evidence directly to Rep. Debbie Lesko on June 11
 - Following up in writing with precise statutory references and documentation

What I Am Requesting Now:

1. **A complete. statute-**

**What I Am Requesting Now:**

1. **A complete, statute-compliant response** to both PRRs — especially PRR #139, which requested internal correspondence, disaster recovery documentation, SLA tracking, and any evidence of CAP-related discussions post-2020.

2. If documents are being withheld, please provide **a citation of the applicable exemption** under A.R.S. § 39-121.01(E), as required by law.

3. If records were transferred, destroyed, or never retained, I request **written confirmation** and the name of the department to which responsibility was passed.

4. I am **formally requesting this matter be placed on the Board of Supervisors' public agenda** for full discussion and follow-up. This includes oversight obligations from the Elections Department, the Recorder's Office, Information Governance, and Procurement.

I will be speaking to this during public

I will be speaking to this during public comment at the **June 25 Board of Supervisors meeting**. However, one minute of comment time is insufficient to address four years of avoidance. I therefore ask:

Please confirm the process for placing this matter on the **next official BOS meeting agenda** for full public discussion.

The public deserves to know why:

- No Corrective Action Plan was ever initiated despite contract anomalies
- Multiple departments have denied record retention or deflected responsibility
- Procurement accountability mechanisms were ignored after 2020, even though they were used in 2018 and 2022

This is not just an election concern. This affects **every third-party contract** under county and state oversight. And I will not be backing down.
